

# GO BEYOND THE ARCH

## Model United Nations on 12-13th September 2020

### HIGHLIGHT

66

Shattuck St Mary's Forest City International School's Model UN team participated in the No Borders Model UN Virtual Conference on September 12-13, 2020. Our Model UN Team joined students from 11 other countries in the spirit of diplomatic collaboration. Students researched and prepared speeches on topics ranging from plastic pollution to maritime security to easing the burden of climate change on vulnerable populations.

Model UN is an activity where students simulate the debates and discussions of the United Nations. Students research, prepare speeches and resolutions on a wide variety of real-world problems. During a conference, students practice public speaking, diplomacy, and conflict resolution skills to collaborate with students from other schools and countries in order to create innovative solutions to real-world problems.
